LAVA

DESCRIPTION
DESCRIPTION

Designed by Maciej Karpiak, the LAVA lighting collection—available as both a floor lamp and a pendant—combines organic sculptural forms with innovative material craft. Its signature shade is crafted from New Glass, a lightweight plant-based biopolymer derived from cellulose and cotton that softens illumination while adding visual lightness. Integrated color temperature control allows you to tailor the ambience to your daily rhythm, shifting seamlessly from crisp neutral light for active hours to a warm, ambient glow for evening relaxation. Whether suspended over a table or positioned beside an olta sofa, LAVA filters light through its textured surface, uniting functional versatility and sculptural design in the spirit of slow living.

LAVA Collection (FR) Imaginée par Maciej Karpiak, la collection de luminaires LAVA — déclinée en lampadaire et en suspension — associe formes organiques sculpturales et innovation matière. Son abat-jour signature est réalisé en New Glass, un biopolymère végétal léger élaboré à base de cellulose et de coton qui adoucit la lumière tout en lui apportant une réelle légèreté visuelle. La température de couleur réglable adapte l'atmosphère au rythme de la journée, passant d'une nuance claire et neutre à une lueur chaude et enveloppante le soir. Suspendue dans l'espace ou posée près d'un canapé olta, LAVA filtre la lumière à travers sa surface texturée, alliant fonctionnalité et design sculptural dans l'esprit du slow living.
